The Use of English: In this course your instructor will speak Spanish 90% of the time. You may use English only when absolutely necessary. When you need to ask a question in English, please ask permission to speak in English only after you have first tried to ask the question or express yourself in Spanish. Speaking only in Spanish will speed up the process of learning the language. It is very important that you use the vocabulary and construction that you will be learning. You should continue to speak Spanish after you leave the classroom. That is one of the advantages of studying in a Spanish speaking country and living with a local family.

Attendance: The shortness and intensity of the course demands that you be at every class if at all possible. The student will be allowed only one unexcused absence per course. For emergencies and sickness you will be offered make up classes.
